Quotation, 87 3-4

VOL. XII. NO. 37

TONOPAH, NEVADA, FRIDAY EVENING, JUNE 7, 1912.

PRICE 10 CENTS.

TAFT WINS THE ALABAMA DELEGATES

Scores First Point In Seating Delegates at Large From Alabama--Roosevelt's Vote to Throw Out the Contests Brought By Own Followers--Could Not Make a Case. --Arkansas Delegates Given to Taft.

CHICAGO, June 7.—(Coliseum)—The Taft forces won a sweeping victory in the Alabama contest this morning, in seating all of the delegates at large. The demand that was made for a record vote on the question that was tabled this morning was taken up again immediately and was promptly granted. Then came the surprise the Roosevelt voters voting to throw out the contest that was brought by their own followers which was recorded as follows: Ayes, 53; nays, none. The Taft committee were dumb-founded at the Roosevelt's action. Senator Murray Crane of Massachusetts ejaculating "For once the steam roller worked unopposedly." Senator Borah said he and other Roosevelt voters as he did because the delegate at large contestants had failed to make a case.

closest friends of Roosevelt declared today that the colonel would go to Chicago next Wednesday and would bolt the national convention unless his contestants were seated. It is said that he has made arrangements already for the bolt and has declared that he is ready to fight to the last ditch.

MARION Ohio June 7.—President Taft wrote Warren Harding of Ohio, asking him to nominate Taft for the presidential candidate of the Republicans at the Chicago convention. Harding replied today that he would be on hand and would nominate Taft.

CHICAGO, June 7.—Senator Borah demanded that the vote of the committeemen go on record in every contest, then began a vitriolic speech. Chairman Roosevelt put the motion over Borah's protest and

declared it carried. Fourteen times Borah shouted, "Mr. Chairman." Roosevelt ignored him and put the question. Borah finally was permitted to continue. He said: "I knew the steam roller would be used, and I demand a record of the votes." This incident emphasized the complete control of the Taftites, and it is believed that it indicates the coming of Roosevelt who will bolt the convention.

CHICAGO, June 7.—Taft having received all the delegates at large from Alabama, the committee immediately started to consider the Arkansas contest.

CHICAGO, June 7.—The committee on contests this afternoon ordered a temporary roll call of the Taft delegates at large from Arkansas. The Roosevelt voters voted with the majority thereby seating the Taftites unanimously.

Secretary Hilles Says It Will Be Taft On the First Ballot

200 TONS POWDER CAUSE EXPLOSION; THIRTY KILLED

VIENNA, June 7.—Thirty persons were killed and hundreds injured when 200 tons of powder exploded at the Molldorf ammunition factory this morning. The bodies of the victims were scattered over the grounds of the company and were picked up in pieces. It is said the cause of the explosion resulted from the improper mixing of gelatine in the mixing room. Buildings for miles around were shaken and many of them wrecked.

Contests Started This Morning--Teddy Will Endeavor to Swing New York Delegation into His Fold.

CHICAGO, June 7.—Many of the Roosevelt forces insist that a bolt will be unnecessary. The national committee started hearing contests at 10 o'clock this morning, a Roosevelter presiding. The Alabama contests came first. Representative Dick argued for the Taft forces, while McIlharg represented the Roosevelt-ers. At the opening of the committee session Senator Borah moved that the national committee amend the rules so that ten members could force a record being made of the roll call on any contest. The motion was tabled. Borah denounced the committee and a bitter debate followed.

TRIBUTE PAID NEVADA'S DEPARTED U. S. SENATOR BY GOVERNOR T. L. ODDIE

The sad news of the death of Senator Nixon has distressed me deeply, as I have known him well for a number of years. We have had many business dealings together, and have been interested in many things in common and I have admired him greatly and have been very fond of him. He possessed a remarkably bright, vigorous mind, and was one of the most energetic and active men I have ever known. He started his career in this state at the bottom of the ladder and by a strict attention to business and a quick grasping of conditions, which presented themselves, and a complete mastering of them, he amassed a large fortune which he has used in the upbuilding of the state. His financial institutions and his fortune were quickly brought to the rescue of the vast numbers of industries and individuals in this state during the dark hours of the financial disturbances which swept the whole country in 1907, and thereby the state was saved from a much more disastrous calamity which would have resulted had it not been for his noble aid. He has given largely to charities, but his giving has been of the unostentatious sort. He has been a power in politics in this state and in the United States Senate where his influence has been strong, and where he has accomplished splendid results for his state. Just at this time his death is most unfortunate for he was in the prime of life and possessed of a power and usefulness which would have increased immeasurably if he could have but lived. He leaves a host of friends in all classes and walks of life and his genial smile and hearty greeting will be long remembered by all who knew him.

LYNCH RECEIVED 24,049 VOTES AND BARKER 19,100

INDIANAPOLIS, Ind., June 7.—The official vote in the recent election of officials of the International Typographical union given out here today show that President Lynch received 24,049 votes and Barker, who opposed him, but 19,100. For vice president Duncan received 21,437 and Tracy 20,593. Hayes was elected secretary-treasurer by a plurality of 4,723.

REVISED LAWS OF STATE HAVE BEEN RECEIVED

Volumes Nos. I and II of the Revised Laws of the State of Nevada, have just been received at this office from Secretary of State Brodigan, also a copy of the laws passed at the special session of the Nevada legislature held last February, for which we tender our thanks.

JUROR GOLDING EXAMINES FRANKLIN ON FINANCES

LOS ANGELES June 7.—At the resumption of the Darrow trial this morning Juror Golding examined Franklin who is still on the stand. During the examination it developed that Franklin received \$500 weekly during the trial of the McNamaras, which in all totaled \$5,000. Attorney Ford took the witness on redirect examination, Franklin trying to explain where the money went. He denied having any feeling against Darrow. Judge Hutton announced that next Monday the trial would be transferred to the courtroom where the McNamara case was heard.

A STRIKE RIOT.

BOSTON, Mass., June 7.—The Elevated Employees' union went out on strike today. Cars were smashed. The elevated employees number 6,000. Fifteen hundred strike-breakers have been imported.

PRESIDENT GOMEZ OF CUBA MAKES CALL "TO ARMS"

Must Quell Uprising or America Will Intervene--Fighting Is Now In Progress--5000 Troops Ordered to Rest on Arms.

HAVANA, June 7.—President Gomez has called every man on the island to arms in order to protect property and prevent outrages that would cause American intervention. At this time fighting is in progress between small bands of negroes and whites.

WASHINGTON, D. C., June 7.—The text of Secretary Philander

ATTEMPT MADE TO POISON SOME MEXICAN SPRINGS

MAZATLAN, June 7.—Arrested by rurales while, it was alleged they were carrying poison to the springs that supply the city, five conspirators were lined along the wall of the city jail Monday and shot to death. The commander of the rurales declared that his men captured the conspirators near the wells, taking from them a great box of cyanide of potassium. It was reported today that prominent persons may be behind the plot and other arrests are expected.

BULLET PIERCES LEFT LUNG OF BESSIE GARVEY

The condition of Bessie Garvey, who was accidentally shot yesterday morning, when in the act of removing wearing apparel from a dark closet, was reported favorable. Miss Garvey was removed to the county hospital and is under the care of a trained nurse at the present time. The bullet was located yesterday afternoon but not removed. It was found that it had pierced the left lung, causing several hemorrhages during the day. If the condition of the patient remains the same today the leaden missile will be extracted.

CHIEF EXECUTIVE WILL NOT APPOINT SENATOR NOW

CARSON CITY, Nev., June 7.—At a late hour last night Governor Oddie was interviewed regarding the appointment of a successor to the late Senator Nixon. He said: "At a time like this I cannot consider any appointments and will wait until the last sad duties have been performed, then I will appoint the man I consider best for the welfare of the State of Nevada."

A new white metal alloy, aluminum, is lighter than aluminum; it makes sound castings, turns well and may be soldered, forged and welded.

APPLICATION OF RUEF FOR PAROLE IS BLOCKED

SAN FRANCISCO, June 7.—Superior Judge Lawlor this morning refused to agree to the application of Abe Ruef for parole thereby blocking its presentation at the prison board meeting that will be held tonight.

HARRINGTON WILL BE WITNESS DARROW TRIAL

LOS ANGELES, June 7.—That John R. Harrington, a Chicago attorney who was employed by the McNamara defense, will be a witness for the state in the trial of Clarence Darrow, was rumored here today when it became known that Harrington had been in Los Angeles for the past two days. District Attorney Fredericks would not confirm the report. Burns' detective headquarters here confirmed a report that William J. Burns is expected in Los Angeles within a few days.

REMAINS OF J. D. MURPHY ARE SHIPPED

The remains of the late John D. Murphy were shipped to his former home at Leadville, Colo., on this morning's train. Mrs. John D. Murphy and her oldest son Jack accompanied the body. The funeral will in all probability be held Monday morning and will be in charge of the Leadville Elks, of which lodge the deceased was a member.

HEARING OF M'GRAW SET FOR SATURDAY EVE

In the justice court yesterday the case of James Herald who was charged with assault and battery on the person of Bell Grader, was called, and settled amicably by the parties concerned. Miss Grader agreed to drop the charges if Herald would apologize to the court for striking her, which was done. Herald also paid the room rent that was alleged to have been due—and the court costs. It will probably teach Herald a lesson for the future.

In the case of the State vs. John McGraw, who is charged with assault with intent to kill, the hearing was postponed until Saturday evening on account of the district attorney being engaged in the Mirkovich murder trial now on in the district court. Robert Malu, who was the target of the knife-wielder, is rapidly recovering at the Miners' hospital and will be well enough to appear in court when the case is called tomorrow evening.

In the Blue Nile region in Egypt a native laborer can live very comfortably on 6 to 8 cents a day.

The automobile telephone service is a success in Havana, where there are 7,000 subscribers.

FIRST RUN OF ORE FROM KATHERINE GROUP AT IONE

Shows Large Returns in Gold--Means Much for the Future of Ione District--Large Acreage Producing Cinnabar.

(By T. D. Van Devort.)

Ione, Nev., June 6, 1912. A stay of two months in the Ione district, during which time many of the more important prospects and mines have been visited, has convinced the writer that it is now but a question of short time when northern Nye county will compel the attention of the mining world. And this is not because of the metal which is at present being produced, and which in a year's time amounts to a considerable figure, but more by reason of the many prospects, evidencing various kinds of mineral, that are steadily coming in and which in the next few months will have become steady outpitters, and entitled to classification among the big mines of the state.

Of the varied assortment of metals which the mountains and hills surrounding Ione are capable of producing there seems to be no dearth. Everything in the metal line that the world requires appears to be here and it only needs a combination of capital and effort to bring it forth. In the days to come gold mining will naturally be the mainstay of the section, but another industry which up to the present time has received little attention is forcing itself to the front. This is the production of quicksilver. Just now there is only one quicksilver proposition—the Mercury company—in operation, but it is making a record for production, to say nothing of the 100 per cent. profit it is annually bringing to its owners on their investment. In addition to this property, which is located three miles south of Ione, there are other "quick" mines being opened up. Principal among these is the proposition controlled by Fred and Frank Davis, situated four miles from town. For a distance of 6,000 feet on this ground a quicksilver ledge has been opened up by surface cuts and shallow shafts, while on the main claim of the group the ground has been exploited for a depth of more than 50 feet by tunnels, shafts, winzes and drifts, opening up in all something like 15,000 tons of ore, running better on an average than 2 per cent. in "quick." This metal is also found in paying quantities near the camp of Bonito, twelve miles to the northeast of Ione, where Fahey and Nelson are opening up what promises to become a great producer.

Some quicksilver properties in Texas enjoy the reputation at the present time of being the greatest producers in the United States, but it is no idle boast to say that if capital and energy get busy with Nye county's quicksilver, the "hacón," to use the phrase of the late Joe Gans, will be brought home (Continued on Page 4.)

THIS WOULD MEAN SLAVERY FOR THE AMERICAN PEOPLE

SEATTLE, Wash., June 7.—Judge Hanford's reasoning in the Olsson case was entirely from the capitalistic point of view, and, if carried to its logical sequence, would mean slavery for the American people. Olsson's statement to the court was exactly the statement I should have made had I been in his place and I count myself worthy to be a citizen of the country in which I was born.

The foregoing statement was made today by Dr. Edwin J. Browne, Socialistic candidate for corporation counsel at the last city election, in regard to the action of President Taft and Attorney General Wickersham in ordering the Seattle federal authorities to take steps for a new trial for Olsson.

Magnesium is the principal ingredient in a new alloy brought out in France that weighs about two-thirds as much as cast aluminum.

If you want to sell your goods use the columns of the Bonanza. It gets results.
